

# Clustering Los Angeles Venues by Categories

Manan Brahmbhatt

# Why this is valuable for people

- Many people travel to LA yearly
- So many places that it is difficult to find places based on their interests

# Data

- Neighborhood data found from [here](#), and venue data found from Foursquare API

# Analysis

- 2573 unique venues
- 303 unique categories
- 963 Food locations
- 149 Nightlife Locations
- 74 Sports Locations
- 67 Nature Locations
- 51 Family Locations
- 36 History Locations

# Further Directions

- Potentially look at specific neighborhoods for more local results
- Potentially look at towns outside of Los Angeles
